**ERIC
HYDE**

I Have worked tirelessly for you the residents of DarcyLever for over 10 years.

Many of you have said to me that I get things done both large and small for the benefit of you the residents and also the community.

Residents say that they cannot understand why you won't vote for me.

I have the interest of the village at heart and believe we are getting short changed by Bolton's Labour council for the monies we provide .

I understand that you may have political preferences but this is a local election and it should be more for the person who can do the best for the village and has its interests at heart.

I have a proven proven track record and that I am more than capable of performing the role whilst not being on the council ,however if I can do it when not a councillor, I will be able to do even better if you will put your faith in me and elect me to serve your interests.

**VOTE FOR THE PERSON
NOT JUST THE POLITICS.**

VOTE ERIC HYDE X

Councillors are elected to represent you.

REAR OF RAIKES ROAD

The area at the rear of Raikes Road and Whiteoakes Avenue, which is on the site of the old Darcy Hall. This unwanted sofa has been dumped and the area has been used for late night parties. The result is that area is now littered with empty beer cans etc. Eric has arranged with the council to have the area cleared and the sofa removed.

HACKEN LANE

This car was involved in an accident at the junction of Hacken Lane and Radcliffe Road. It was then left on part of the footpath meaning people were having to walk onto this busy road. The vehicle had been left here for five weeks and residents contacted Eric who arranged with the council to have the vehicle removed.

► The Council doesn't spend the money it has

This year it is planning to underspend its budget by £528,000. This is money provided from **your** Council tax to be spent on services (like repairing the roads!)

No Money for Roads?

They would rather spend £1 million pounds on a Sauna at Bolton One. More money on a town centre location where where you cannot park.

If Lib Dem amendments over the last 3 years had been adopted, Bolton would have spent over £11.5 million more on roads, with no effect on Council Tax
